ELSA LÉGER TAKES CONTROL: « DIE A LITTLE » EP & VIDEO LAUNCH DEC 6th

FOR IMMEDIATE RELEASE – FRANCE, UK, SOUTH AFRICA – November 23, 2025

The French artist with international ambitions, **Elsa Léger**, announces the release of her **5-track EP** and an internationally produced **music video**, "**Die A Little**," on **December 6th, 2025 at 6:00 PM CET**.

The entire project embraces a universe blending dark alternative rock, black glamour, and cinematic aesthetics, with a sensibility that evokes the intensity of James Bond themes.

A Unique Background, Music Guided by Instinct

Elsa Léger's music explores the paradoxes of the human soul, the zones of shadow and clarity that shape our decisions: where instinct and discipline collide.

Her unique background—former bodyguard, high-level figure skater, and actress trained at Cours Florent—fuels a deeply physical, emotional, and instinctive performance.

"Die A Little: If life dictates the rhythm, then risk is the melody."

A British Production and Spectacular Video Shot in Cape Town

The quality of the EP's production is ensured by an entirely British collaboration. Recording sessions began at the celebrated RAK Studios (London) with composer and sound engineer Jim Lowe (Stereophonics, Nick Cave, etc.), and were completed at Vada Studios (UK) with Matt Terry & George Perks (notably for the flagship track, "Die A Little").

The "Die A Little" music video, filmed entirely in Cape Town (South Africa), offers a powerful cinematic staging that relies on spectacular landscapes and meticulous direction.

The message: This project tells a story of desire and ephemeral love. The airplanes symbolize those fleeting relationships that shape who we become.

Elsa's interpretation:

"This project shows that sometimes we must follow our instinct to make the best decisions, despite the potential consequences"

The visual production of the video was executed with the **AIR.Tech** team and the ultra-experienced aerobatic pilots of the **Marksmen Team**. The project is supported by sponsors **LEATT** (extreme sports brand) and **NEWORDER Group** (cutting-edge cybersecurity).
